

Sustainable flexible shell to add value to Internal Auditing

It has been our philosophy and core business for over 10 years to work together with Internal Audit Functions to provide sustainable, flexible support with multidisciplinary, highly experienced professionals. The teams and capabilities vary from strategic thinking, audit coordination to execution of audits.

"It is our purpose and passion to help Internal Audit Functions with the value creation Mindset for their firm."

How we add value ?

- Highly experienced professionals
- Multidisciplinary of team
- Partner support
- Innovative thinking
- Flexibility
- Changeability
- Motivation
- Training of existing team
- Scale up and down when required
- Industry experience

About CPI

The future in professional services *in risk, finance and governance*

We offer clients and professionals what they truly need in the field of risk, finance and governance: highly experienced and passionate professionals, flexibility, honest pricing and thought leadership.

Resilient clients *with an awareness of the current climate*

Our clients recognise that developments around the world require their organisations to be strongly focused on risk, finance and governance. They choose to partner with CPI and tackle both the compulsory items and those which create value.

Experienced and driven professionals *with a shared mission*

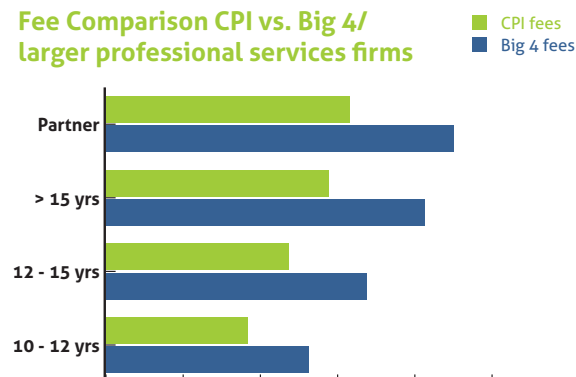

The CPI model attracts entrepreneurial, highly experienced professionals who identify opportunities for our clients and create value in the field of risk, finance and governance. We select only the very best.

We focus on Risk, Finance and Governance and only take on work we know we are good at

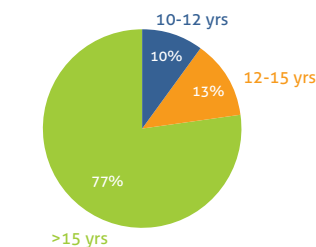

CPI offers flexibility and honest pricing
